Ultra-Compact 300 Watt Power Supply measures only 6.00 x 4.00 x 1.50” with RoHS Compliance from Advanced Power Solutions

Power specialist Advanced Power Solutions (APS) announces the APS300 Series of industrial power supplies delivering up to 300 Watts of both single and dual output voltages. These U-Frame products measure only 6.00 x 4.00 x 1.40” and are ideal for today's low profile systems requiring both high power density and low cost.

The APS300 Power Supplies offer up to 300 Watts of continuous output power with only 22 cfm airflow and offer both single and dual output voltages ranging from 3.3-55 VDC. These supplies feature Status & Control Signals (Power Good, 12V Aux Fan and Fan Fail); operate over a range of worldwide input voltages (90-132 / 180-264 VAC) with Power Factor Correction for EN61000-3-2 (Class A) compliance. Standard models are RoHS Compliant, offer operating temperatures from -20 to 70°C, built-in Over-Current / Over-Voltage / Overtemperature circuits, have been approved to International safety standards (UL/cUL60950, EN60950), bear the CE Mark (LVD) and meet EN550022 Class B emission standards. Standard cover and fan options include Finger Safe Cage, End-mount Fan/Cover and Top-Mount Fan. See Specification for details.

Units are available now with complete specification available on the web at www.advpower.com. Volume pricing is as low as \$129 for 300 Watt Single Output Models. Please contact sales@advpower.com for both sales and technical support.
